ROUTING MONITORING FORM

Date Submitted	Chapter	Page No	Paragraph No	Feedback	Submitted By	Date Released	Route Number
2025-11-30	1	3	5	Rationale- state clearly why this study is important. Is there really a need for this? Convince your readers	Angeli Paquera - Panel	2025-11-30	Route 1
2025-11-30	2	5	1	Enhance your RRL. Make sure its coherent. Observe as well proper in-text citation	Angeli Paquera - Panel	2025-11-30	Route 2
2025-11-30	3	38	1	Include the ff: 1. Discuss how did you come up with the sampling of participants 2. Use APA format in your table 3. Discuss how will you modify the instrument? What variable/s? Indicators?	Angeli Paquera - Panel	2025-11-30	Route 2
2025-12-02	1	30	2	For your SOP 1, it was mentioned that the respondents are internal and external however some of the under SOP 1 aren't answerable by	Ronie Ho - Panel	2025-12-02	Route 1

				external like attendees.			
2025-12-02	2	37	2	What's your inclusion and exclusion criteria in choosing this 5 convention centers in butuan. It should be fair to other conventions	Ronie Ho - Panel	2025-12-02	Route 2
2025-12-02	2	40	2	For ethical standards follow this format: ETHICAL CONSIDERATIONS TEMPLATE GUIDE QUESTIONS A. Protection of Intellectual Property Rights (IPR) B. Informed Consent C. Data Privacy and Confidentiality D. Voluntary Participation and Freedom to Withdraw E. Minimization of Harm and Risk Management F. Beneficence and Contribution to Knowledge G. Justice and Fair Participant Selection H. Data Integrity and Accuracy I. Transparency and Honesty in Reporting J. Use of Patented or Copyrighted Materials K. Ethical Considerations for Animal and Human Trials L. Responsible Use of AI and Other Related Technologies	Ronie Ho - Panel	2025-12-02	Route 2

				M. Ethical Clearance and Institutional Approval			
2025-12-05	1	31	5	For SOP 5, kindly include an item that examines the relationship between the respondents' demographic profile and the key variables of the study.	Ma. Evaliza Del Mar - Adviser	2025-12-05	Route 1
2025-12-10	1	4	1	avoid one page paragraph (very long). divide the paragraphs by its ideas	Beverly Jaminal - Panel	2025-12-10	Route 1
2025-12-10	1	5	1	RRL - start with lit on the main topic followed by its sub-variables. Profiling should be discussed in the last part	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	1	29	1	1.4 - enhance the independent variables - what do you mean bu managers and staff? insident the box?	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	1	32	1	1.8 - use the word respondents" and not participants	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	2	38	1	Table 1 should be in APA format	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	2	39	2	2.4 - indicate that the instrument will undergo validation and pilot testing	Beverly Jaminal - Panel	2025-12-10	Route 2

2025-12-12	1	1	1	“Meetings, Incentives, Conventions, and Events (MICE) is one of the most dynamic sectors of global tourism…” This introduction provides a strong global context but lacks a gradual transition toward the national and local setting required in SMCC’s deductive-flow format. You should integrate clearer links showing how global developments relate to the Philippine MICE landscape and eventually to Butuan City. This will strengthen coherence and better justify the study’s relevance.	Dominic Abarquez - Panel	2025-12-12	Route 1
2025-12-12	1	2	2	Last Paragraph of page 2. “Very few studies assess MICE readiness in Mindanao, leaving a research gap that this study aims to fill…” While the gap is mentioned, it remains broad and does not sufficiently explain what specific aspects of readiness have not been studied in the Mindanao or Butuan context. You should	Dominic Abarquez - Panel	2025-12-12	Route 2

				clarify which dimensions—physical setup, technology, or staff services—lack empirical investigation. Strengthening this section will improve alignment with SMCC's expectation for a well-defined research gap.			

2025-12-12	1	3	4	“The significance of this study lies in its ability to guide decision-making, support industry development, and strengthen Butuan’s long-term competitiveness…” This significance section is comprehensive, but it repeats ideas already stated in earlier paragraphs and extends beyond what is needed for an undergraduate thesis. Please streamline the discussion by focusing on the most direct beneficiaries and removing repeated explanations. SMCC guidelines emphasize conciseness and avoidance of redundancy in Chapter I.	Dominic Abarquez - Panel	2025-12-12	Route 2
				“This study uses Donabedian’s Structure–Process–Outcome (1966) framework…” The theory is clearly identified, but the paragraph does not sufficiently show how each domain (Structure, Process, Outcome) aligns with			

2025-12-12	1	27	1	the study's variables such as physical setup, technology utilization, and event services. Adding explicit mapping between the theoretical constructs and your operational indicators will strengthen conceptual alignment. SMCC requires this section to clearly demonstrate how the chosen theory supports the research design.	Dominic Abarquez - Panel	2025-12-12	Route 2
2025-12-12	2	6	1	"Preparedness in MICE means a venue can run events safely across three areas. The first is the physical set-up… The second is technology… The third is event services…" This paragraph outlines readiness dimensions but reads more like a summary than a synthesized review of literature. You should integrate the cited works to show how different authors support or contrast with each dimension rather than simply describing them. SMCC guidelines emphasize synthesis	Dominic Abarquez - Panel	2025-12-12	Route 2

				over enumeration in Chapter II, which will improve clarity and analytical depth.			
2025-12-12	2	5	2	Please add an opening section explaining how the RRL is organized and how it supports the study.	Ma. Evaliza Del Mar - Adviser	2025-12-12	Route 1
