SAINT MICHAEL COLLEGE OF CARAGA
RESEARCH & INSTRUCTIONAL INNOVATION DEPARTMENT

ROUTING MONITORING FORM

Date Submitted	Chapter	Page No	Paragraph No	Feedback	Submitted By	Date Released	Route Number
2025-12-05	1	4	2	Rationale- state clearly why this study is important. Is there really a need for this? Convince your readers	Angeli Paquera - Panel	2025-12-05	Route 1
2025-12-05	1	5	2	Enhance your RRL. Make sure its coherent. Observe as well proper in-text citation	Angeli Paquera - Panel	2025-12-05	Route 2
2025-12-05	2	27	1	Include the ff: 1. Discuss how did you come up with the sampling of participants 2. Use APA format in your table 3. Discuss how will you modify the instrument? What variable/s? Indicators?	Angeli Paquera - Panel	2025-12-05	Route 2
				Please review and revise the spacing and			

2025-12-05	1	22	3	alignment of SOP 1 and SOP 2. Ensure that both statements follow a consistent formatting style, including proper indentation.	Ma. Evaliza Del Mar - Adviser	2025-12-05	Route 1
2025-12-10	1	1	1	title page - delete Carmen and Buena vista this should be discussed in the scope and limitation	Beverly Jaminal - Panel	2025-12-10	Route 1
2025-12-10	1	2	1	follow the rules in citations - apply to all parts of the manuscripts	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	1	3	1	avoid very long paragraphs - break into clear and well-organized ideas	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	1	4	2	revise to emphasize the rationale and significance of the study	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	1	5	2	give a short introduction about the RRL	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	1	9	1	follow rules in citations - apply to all parts	Beverly Jaminal - Panel	2025-12-10	Route 2

2025-12-10	1	5	1	check the coherence of ideas in the RRL	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	2	26	2	Research Locale - give short background on the tourist destinations	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	2	27	3	2.3 use future tense	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	2	27	2	indent the start of the paragraphs	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	2	28	2	Table 1 should be in APA format	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-10	2	32	1	break/cut the data gathering procedure to cluster ideas	Beverly Jaminal - Panel	2025-12-10	Route 2
2025-12-12	1	1	1	“Tourism promotes economic and community development but may also harm the environment through pollution, waste generation, and habitat degradation.” This opening provides a global context but does not transition clearly to the national and local situation as required by the SMCC deductive structure.	Dominic Abarquez - Panel	2025-12-12	Route 1

				Strengthening the flow by presenting Philippine and Agusan del Norte trends before narrowing to Carmen and Buenavista will enhance coherence. This will allow the background to build logically toward the localized research problem.			
2025-12-12	1	2	1	“Globally, research demonstrates that genuine and meaningful tourism experiences strengthen environmental awareness and long-term responsible behavior (Zhang et al., 2022)… service quality have been identified as strong motivators of ERB across countries (Bhatti & Alnasser, 2023) (T. E. Cheng et al., 2021).” This paragraph cites many studies consecutively, resulting in a	Dominic Abarquez - Panel	2025-12-12	Route 2

				listing effect rather than a synthesized discussion. You should group findings thematically (e.g., experiential factors, emotional drivers, service quality) to demonstrate deeper analysis. SMCC guidelines encourage synthesis rather than enumeration to maintain clarity and intellectual cohesion.			
2025-12-12	1	3	3	“These can include improving operations, using green practices, and running public awareness campaigns. Examples include saving water and energy, properly disposing of trash, and respecting natural sites.” The significance section goes into operational details that belong more appropriately to recommendations rather than significance. Streamlining this section to identify	Dominic Abarquez - Panel	2025-12-12	Route 2

				only primary beneficiaries and intended contributions will make the discussion more concise. SMCC guidelines require significance to be focused, non-redundant, and distinct from other sections.			
2025-12-12	1	18	1	“This study is anchored on the Value–Belief–Norm Theory proposed by (Stern et al., 1999)… individuals’ environmental values shape their beliefs about ecological consequences and personal responsibility…” Although the theory is well described, the framework does not explicitly connect each theoretical component to the study’s variables such as environmental commitment, social influence, or tourist value perception. You should clarify how each variable	Dominic Abarquez - Panel	2025-12-12	Route 2

				arises from or aligns with the theoretical mechanisms of values, beliefs, norms, or perceived behavioral control. This improves theoretical alignment and meets SMCC's requirement for clear theory-to-variable mapping.			
2025-12-12	2	5	1	"According to Albattat (2024) Internal factors such as environmental attitude, awareness, satisfaction, and social responsibility have been shown to significantly shape tourists' environmentally responsible behavior…" The discussion introduces internal factors of ERB but does not transition smoothly into subsequent subsections, resulting in fragmented flow. Organizing the RRL into clearly labeled themes—	Dominic Abarquez - Panel	2025-12-12	Route 2

				such as Environmental Commitment, Social Influence, Satisfaction, Value Perception —will greatly improve readability and alignment with your conceptual framework.			
2025-12-12	2	5	1	The RRL should begin with the main topic of the study, not the first variable. Before presenting determinants, include an introductory paragraph defining ERB, its global context, and its relevance.	Ma. Evaliza Del Mar - Adviser	2025-12-12	Route 1
2026-01-05	1	26	2	A short background should be written in the research locale	Maricel Pabatang - Panel	2026-01-05	Route 1
2026-01-05	1	26	2	A short background should be written in the research locale	Maricel Pabatang - Panel	2026-01-05	Route 1
2026-01-05	1	26	2	A short background should be written in the research locale	Maricel Pabatang - Panel	2026-01-05	Route 1

2026-01-05	1	26	2	A short background should be written in the research locale	Maricel Pabatang - Panel	2026-01-05	Route 1
